

## **Annual Report 2019 of Physics Alumni Association, Department of Physics, CUSAT on 12.10.19**

### **Dear alma mater**

The association has lost two of its members prof. Kuttappan few months back and last week prof. M. Sabir. The association place on records their contribution to the department and in particular the activities alumni association. Prof Sabir had been active member and associated with the dept. and association till his last breath.

*Alumni associations exist to support the parent organization's goals, and to strengthen the ties between alumni, the community, and the parent organization.*

The two initial requirements to start or re-activate an alumni association are:

- The enthusiasm and willingness of several individuals who are willing to take on the organizational initiative **and sustain it.**
- The interest of a reasonable nucleus of alumni and friends of the organization to participate in the association's activities.

I hope we have succeeded in that respect to certain extend.

Stay connected

A new website of Physics Alumni Association, Department of Physics, CUSAT and named it as PHYCA (Physics CUSAT Alumni Association) has been launched. Many thanks to the effort of Dr Jolly Chirayil who designed the site and maintaining the site. Thanks to Dr. Ajithkumar P.T and Gopakumar P for the initiatives.

Several awards were implemented including alumnus of the year, best thesis award and best MSc project award. This year PHYCA supported 4 students belongs to economically weaker sections.

An official Letterhead and Logo is designed for PHYCA.
